Dear Readers,

Education is not merely a nursery of thought or centre for citizenship. It is an interpersonal influence that stimulates thinking and streamlines creativity. It is more so with engineering or technical education which is the student's wise investment for a promising future career. To exemplify this and to effectuate student's zeal to reach unscaled heights in engineering and technology, DMI College of Engineering has come up with inspiring thoughts and motivation. It is where engineering education is defined as a vital component that should pride in its national relevance and socio-economic viability. The sincerity enriched professionals that we are sending out of our portals will also be integrity be decked smarts. What has been achieved is, no doubt, a golden milestone but what remains to be achieved rests on the shoulders of our staff and students who are our hope and faith. I cordially greet all the students who strive for academic and moral excellence to be a part of D.M.I Educational family and to graduate successfully as world-class professionals.

-Rev. Sr. I. AROKIA MARY
