Department Of Information Technology organizes seminar on Cloud Computing and its Application..Guest Lecture was attended by second and final year students of IT . The session is about how the cloud computing is implemented and its application..

OUTCOMES:

- Brief explanation was given about Cloud Computing and its application.
- He shared his work experience with us and gave some tips to how to develop our self growth.
- He gave what are the benefits in working in Avasoft (p) Ltd..The Session was most interesting and interactive .At the end of the session he answered all our queries.

We immensely grateful to our Principal and our Head of the Department for arranging this guest lecture and also we are thankful to the resource person who spend his valuable time with us.
