Review of Alumni meeting:

1. The status of work completion of various committees may be reviewed periodically for the smooth conduction of Alumni Reunion.
2. It is a good practice that the faculty may accompany/guide the Photographers for arranging and coordinating the students while taking photos.
3. An interacting session of alumni with Final year students may be arranged for motivating them for their placement and higher studies.
4. Registration fees for alumni for momento /individual photo to be included from next year. This will also be a gentle commitment for the registered students to be present on the Alumni reunion day.
5. Faculty involved in the committees are expected to be more accountable while conducting any such programs to maintain discipline and decorum inside the hall during the conduct of meeting.
6. Student volunteers from refreshment committee may be planned and arranged to spread a good hospitality for the guest, honourable members, alumni, and others.
7. The department may develop a good rapport with alumni to make such events a grand success.
