Dear Readers,

The success story of any Institution or any individual is a gradual growth of every single step that is kept that makes a giant leap of achievement….

To watch the graph, ascend really makes me privileged…

'Catch them young' is a popular phrase that emphasizes that right education should be given at the right time to make a living…

Education is an investment that would give returns in proportion to the value added…. DMI believes in value based education of high standard in order to ensure that every product of DMI is well organized by the industry. We not only groom our students to become excellent engineers but also equip with interpersonal skills to work in corporate and companies…
